Florida Surgeon General Calls for Halt in Use of COVID mRNA Vaccines

In a statement released today, Florida Surgeon General Joseph Ladapo, M.D., Ph.D., said the U.S. Food and Drug Administration failed to adequately respond to questions he raised in a letter last month about mRNA technology delivering DNA contaminants into people's cells.

Miss a day, miss a lot. *Subscribe to The Defender's Top News of the Day.* ***It's free.***

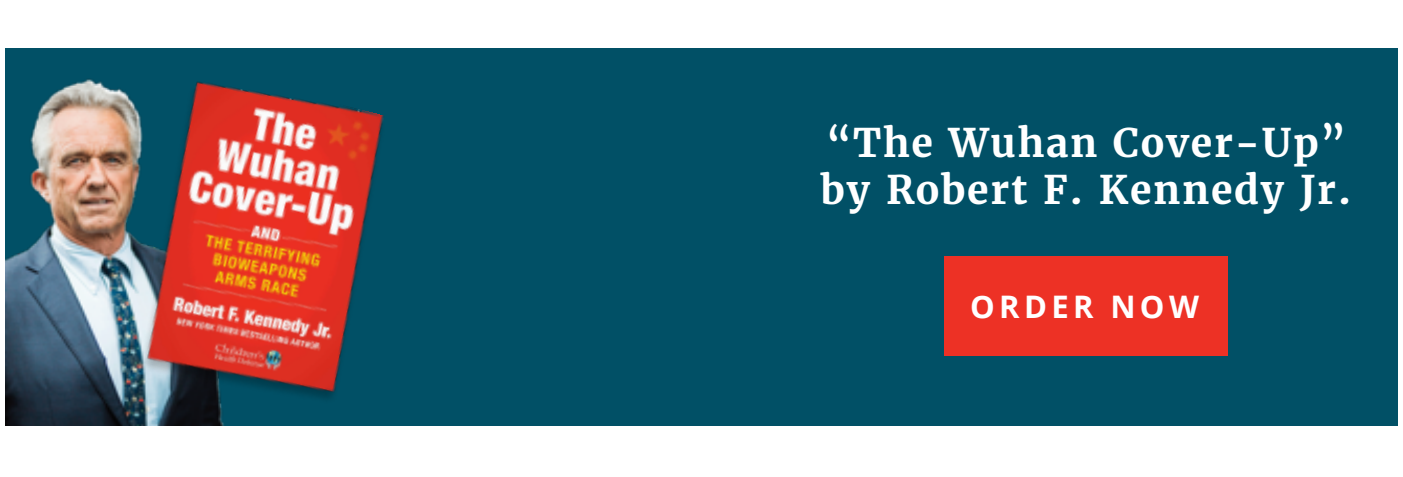
Florida Surgeon General Joseph Ladapo, M.D., Ph.D., today called for a "halt in the use of COVID-19 mRNA vaccines" over safety concerns that the mRNA technology is delivering DNA contaminants into people's cells.

In a statement released today by the Florida Department of Health, Ladapo said the U.S. Food and Drug Administration (FDA) failed to adequately respond to questions he raised about the issue in a letter sent last month to the FDA and the Centers for Disease Control and Prevention (CDC).

Ladapo asked the agencies to address the recent discovery of host cell DNA fragments in the Pfizer and Moderna mRNA vaccines. Scientists studying the vaccines found bacterial DNA left over from the microscopic plasmids used for multiplying DNA in the mRNA vaccine manufacturing process.

One of the gene therapy tools discovered in COVID-19 vaccines is SV40, which is known to be cancer-promoting.

Ladapo's letter said the presence of these fragments was particularly concerning given that the mRNA shots use lipid nanoparticles, which he said are "an efficient vehicle for delivery of mRNA in the COVID-19 vaccines into human cells, and may therefore be an equally efficient vehicle for delivering contaminant DNA into human cells."



"The Wuhan Cover-Up" by Robert F. Kennedy Jr.
ORDER NOW

He asked the agencies to explain whether the risks of contaminant DNA being integrated into human cells had been assessed, per the agencies' own guidelines, especially given the new risk factors introduced by the use of lipid nanoparticles.

In the FDA's response, Peter Marks, M.D., Ph.D., director of the Center for Biologics Evaluation and Research at the FDA, reiterated that the agency is "confident in the quality, safety, and effectiveness of the COVID-19 vaccines."

Marks also said that "on first principle, it is quite 'implausible' that residual small DNA fragments" could "find their way into the nucleus," of cells and be incorporated into chromosomal DNA. He added that the FDA's pharmacovigilance data on hundreds of millions of individuals "indicate no evidence indicative of genotoxicity."

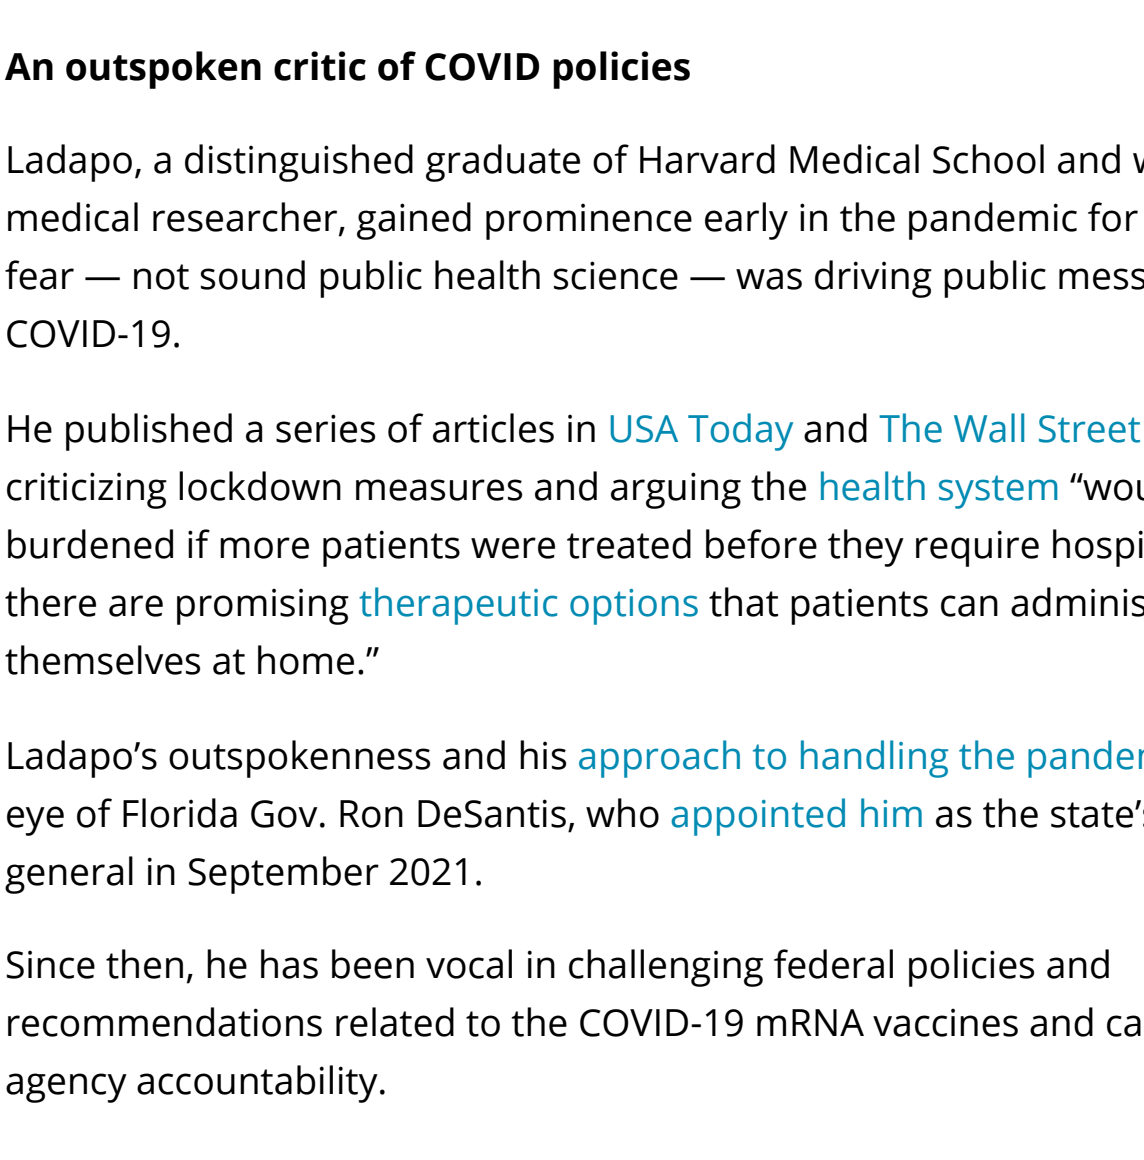
The real challenge facing the FDA, Marks said, is "the ongoing proliferation of misinformation and disinformation about these vaccines which results in vaccine hesitancy that lowers vaccine uptake."

Ladapo said the response did not sufficiently address his concerns.

"The FDA's response does not provide data or evidence that the DNA integration assessments they recommended themselves have been performed," Ladapo said. "Instead, they pointed to genotoxicity studies — which are inadequate assessments for DNA integration risk."

In his statement, Ladapo reiterated that "DNA integration poses a unique and elevated risk to human health and to the integrity of the human genome, including the risk that DNA integrated into sperm or egg gametes could be passed onto offspring of mRNA COVID-19 vaccine recipients."

"If the risks of DNA integration have not been assessed for mRNA COVID-19 vaccines, these vaccines are not appropriate for use in human beings," Ladapo said.



Joseph A. Ladapo, MD, PhD
@FLSurgeonGen · Follow

I am calling for a halt to the use of mRNA COVID-19 vaccines.

I am calling for a halt to the use of mRNA COVID-19 vaccines.

The U.S. Food and Drug Administration and the Centers for Disease Control and Prevention have always played it fast and loose with COVID-19 vaccine safety, but their failure to test for DNA integration with the human genome - as their own guidelines dictate - when the vaccines are known to be contaminated with foreign DNA is intolerable.

RFK Jr. and Brian Hooker's *New* Book: "Vax-Unvax"
ORDER NOW

An outspoken critic of COVID policies

Ladapo, a distinguished graduate of Harvard Medical School and well-published medical researcher, gained prominence early in the pandemic for arguing that fear — not sound public health science — was driving public messaging around COVID-19.

He published a series of articles in USA Today and The Wall Street Journal criticizing lockdown measures and arguing the health system "would be less burdened if more patients were treated before they require hospitalization, and there are promising therapeutic options that patients can administer themselves at home."

Ladapo's outspokenness and his approach to handling the pandemic caught the eye of Florida Gov. Ron DeSantis, who appointed him as the state's surgeon general in September 2021.

Since then, he has been vocal in challenging federal policies and recommendations related to the COVID-19 mRNA vaccines and calling for agency accountability.

He issued an alert in Feb. 2022 to the Florida healthcare sector and the public warning that COVID-19 mRNA vaccines caused a "substantial increase" in reports of adverse events in Florida.

In March 2022, Ladapo recommended against COVID-19 vaccines for healthy children, making Florida the first state to break with official guidance from the CDC.

Last year he recommended against anyone under the age of 65 getting new COVID-19 vaccine boosters.

It's not just the DNA contamination, these are depopulation bioweapons causing mass suffering and death. How about calling for real Nuremberg II trials for crimes against humanity?

>> The FDA, WHO, CDC etc are captured agencies and do not have the health of the public as a priority, if they ever did. I remember reading about a researcher at the pharmaceutical company who was tasked with finding out if the MMR vaccine was tied to autism. He reported that he found a definite link and was then told to destroy his research records. His superior who gave him that order then resigned and took an executive position in the FDA. The alphabet agencies are all tied to Bill Gates and Big Pharma and individuals within those agencies are heavily invested in pharmaceutical products like vaccines.

The FDA and The Who and CDC have known since the inception of the mRNA, that it was neither 'safe' nor 'effective' for stopping any made-up virus. Keep trying Dr. Ladapo, you have nothing to lose - but the corrupt pars that be still want to kill more Americans, and the sad thing is, so many are still under hypnosis of thinking the unsafe and ineffective make-believe vaccine is going to save them --- as people are still falling dead around us. They have been well-brainwashed over the years to think their salvation rests in big Pharma. The concept of God, and prayer never crosses their minds.

Interesting. When you consider that Pfizer's own Shareholders report states; "it is not safe or effective" and "it is to run along side our immune system allowing other alternatives", does not that already sound alarm bells. Like BIG bells, trumpets etc. Does anyone read anymore. What was the opening hype. We're in a Pandemic yet, where did the colds and flue's go?. Then, we have this drug but it is experimental. So, media report a false narrative but behind the scene, the Medical Fraternity are told if you don't do what we say you will loose your licence to be a medico. Doesn't this sound like "Hello, I smell a RAT". So people listen to the lying media coerced by the so called GOVERNMENT which causes a Pandemic of FEAR in which people forget the word EXPERIMENTAL who run to their Doctors who become YES MEDICO's due to FEAR of loosing their licences and inject a EXPERIMENTAL Drug which No one knows what is in it. So here we are, with over a million extra dead people in the world, over a billion injured and those in high places still say IT IS SAFE AND EFFECTIVE. Wake up and smell the roses. The CDC and the FDA only care about the bottom line, not you. The Government sold you out along time ago and the medico fraternity is held by ransom. so if you come along some who still hold moral integrity to a high standard stand with them. As evil runs in short bursts but good always endures.

>> It is obvious that you have not read there report. Firstly, did I say Pfizer advertised it. No. I said their Sharehodlers Report stated it.
>> Try reading the Report. Page 6. Risk Factors Summary para 4. (We may not be able to demonstrate sufficient efficacy or safety of our COVID-19 vaccine to obtain prmanent regulatory approval in the United States, the United Kingdom, the European Union, or other countries where it has been authorised for emergency use or granted contditional marketing approval). Page 99 (This portfolio id designed to mirror the evolution of the immune system to rely on multiple complementary pathways). So, get your facts right before you type off. This is their report, not bullshit or unsubstaniated jargon. The fact is it is not SAFE or EFFECTIVE and CANNOT be DEMONSTRATED and it clearly states: Designed to mirror and evolve the immune system. Their Report, Their words.

Shame on this surgeon general Ladapo - taking a "stance" long after the disaster and crime occurred. Way too little and too late. Anyone can make a decision after the fact. An argument that says that they needed to have things play out to be sure is criminal. Using people as lab rats. He should be charged with a crime and removed from office for not protecting people.
I knew absolutely NOT to get a shot because I read up on polio "vaccines" and the SV40 virus that causes cancer. I read that Dr. Albert Sabine - the inventor of the oral and safer polio vaccine - said that (not an exact quote) "all of the soft tissue cancers from 19xx to 19yy in American were caused by Salks vaccine. Why didn't I hear Ladapo or ANYONE else talking about this historical evil. You have to be stupid to allow anyone to put anything into your body. It's all a fraud. Polio. Cancer. Viruses. Vaccines. ALL a fraud to make money and make people ill so that still MORE money can be made. No different than experimenting on monkeys - for money - and claiming that "it's for the greater good." All bullshit.

> Many have tried to expose the evil over many decades! Have you been asleep? 75 years was hoped for to hide the truth! Thank God for Dr. Ladapo and I am not religious! The truth will never surface if the people don't wake up. Vaccines never saved any of us. Clean water and better housing and nutrition etc. etc. did the job but evil money keeps the lie of "safe and effective alive" and universities accepting grants of millions of dollars is a big part of the problem! Doctors graduate knowing very little about vaccines! What to give and when to give it and chronic disease follows a trajectory of more vaccines, more chronic illness! Measles, mumps and chicken pox were an immune system strengthener and research shows that... but the old are dying out now, (those that had the Natural Measles, Mumps and Chicken Pox) now most have been vaccinated and weakened their immune system. That is not to say if your child is immunocompromised... you are not aware of the danger of these infections! Protect at all costs and not by vaccinating with unavoidably, unsafe vaccines! You know what to do! Healthy children are not at risk but the vaccine or the infections are a risk to those children who have health problems. I always remember the warning about NOT to vaccinate if your child was ill and that went out the window with the covid vaccine! Why? Did they want to kill the elderly and the sick? People who had cancer or heart conditions or some other illness were advised to get the covid vaccine, experimental as it was! Did the science change! I don't think so as... if you're ill, your immune system is already under stress! More stress is not the answer! Off label drugs were safer than an experimental vaccine, in my opinion and in the opinion of extremely caring doctors who are now questioning ALL vaccines! Some good out of a terrible BAD perhaps! SIDS and SADS no more?

> The many people I know who succumbed to the tsunami of fear mongering and government-medical misinformation and got jabbed were certainly not "stupid". Once your mind was captured by fear and the 24/7/360 bombardment to get vaccinated, which is still going on, it has proven difficult to brake free. I live in Oregon and because everything concerning medicine, especially vaccines has been so politicized, the left has a predisposition to be pro pharma, and reject RFK Jr. no matter how much Pfizer, Merck, Sanofi, GSK, Sanofi-Pasteur has been fined for fraud and other criminal behavior. Its been that way for years in the more than twenty-five years I have followed this issue.

HEAR ME OUT!! I don't think they should be stopped. I have very awake brothers. My only sister pounded her fists on the table and said we "ARE FOOLISH IF YOU DON'T TAKE THE SHOT". She has taken several. She is sick on and off all the time.

There are people who are totally in honor of the shot and will vehemently blame people for spreading diseases if the jab is banned. Allow it to run, just like the flu shot. Their body their choice. Will I be sad when my sister gets seriously sick or dies, yes. But HER BODY...HER CHOICE!!!

Think about it.....Banning this killer shot will backfire. Allow people to see first hand the damage, more will wake up, more will not.

THEIR BODY...THEIR CHOICE.

> This might be a viable position if governments were not in the middle of it: if there were no licensing agencies, no coercion and pharmaceutical companies were not protected, produced products for which they were properly liable and which the public understood that they were taking at their own risk. The fact is the products were endorsed and in many cases enforced, and people lost agency and these terrible errors need to be dealt with at the governmental and institutional level.

Even if they see the damage, they will be told that it is caused by something else. As I write, I have so many seriously ill customers who continue to believe that they are sick with something other than the genetically forced new covid variant because that is what the doctors and CNN are telling them. Tell them that you are sorry that they feel the way they do about you but that you cannot, with good conscience, approve of them taking the vax because if you were to lose them due to any adverse event, you could not live with yourself.

Big pharma's business plan, injure people slowly via vaccines, children and adults, over 80 "vaccines" by the time a child reaches adulthood. If the vaccines do not sterilize and kill you, they destroy the immune system over time. Then big pharma will sell you drugs and treatments for the diseases you can no longer fight and injuries they have inflicted upon you via the vaccines. Cancer.

Peter Marks,
director of the Center for Biologics Evaluation and Research at the
FDA, reiterated that the agency is "confident in the quality, safety,
and effectiveness of the COVID-19 vaccines."

I know that is not true. Thus i have no reason to believe what Marks said about it being "implausible" that fragments of DNA could find their way into the nucleus of cells. "Implausible" is not scientific proof of anything. The FDA even has a standard restricting how much DNA is allowed. Obviously there is FDA concern about what DNA contamination could do.

The FDA and thus Marks, know that the Covid shots are not effective, as they don't prevent transmission and they don't prevent people from contracting Covid. The routine now is that they may reduce symptoms and hospitalization, but studies indicate otherwise.

Truth be told, the Covid shots don't qualify as safe, either. Too many adverse events have been occurring to recipients of the Covid shots. The FDA claims they can't find causation for most, but Dr. Malone for one had multiple adverse events after a Covid shot. With 1,100 types of adverse events, how many others have had multiple adverse events? It doesn't take a rocket scientist to see what has been going on. Doctors and nurses have been threatened not to talk about what they have been experiencing with their vaxxed patients. The truth is getting out anyway.

`UnionMember',
You owe Dr Ladapo a public apology for your atrociously slanderous comment. It is the complete inversion of his record.
I'm guessing you didn't even bother to do even 2 minutes research on Dr. Ladapo or you would know he has been the most active of State Surgeon Generals standing up for our medical liberty.
In the past 3 years he has been a vigorous leader in our nation by his public questioning and countering of the FDA and Pfizer propaganda.
He was appointed to office in Sep 2021, and has been prolific in messaging and actions leading the charge against medical tyranny ever since.
Since you couldn't be bothered to look up his record, here is a sampling of his actions, public advisories, and testimony in the past three years:

"Parents, don't hold your breath... CDC & FDA abandoned their posts. Keep sticking with your intuition and keep those COVID jabs away from your kids."

"Being a parent is hard enough, and it's even harder when schools push gender transitions without your consent."

Until now, he did not stop the shots. Many people got injured while he was talking but not acting. He always had the power to stop these dangerous shots.
Controlled opposition tends to say what you want to hear, but will delay actions that save lives and create controversy and debate in the media.
Imagine if he stopped the shots back in 2021 or 2022... The narrative would have collapsed earlier.
Slanderous? Where did I say anything false?

Children's Health Defense

Children's Health Defense® is a 501(c)(3) non-profit organization. Our mission is to end childhood health epidemics by working aggressively to eliminate harmful exposures, hold those responsible accountable and establish safeguards to prevent future harm. We fight corruption, mass surveillance and censorship that put profits before people as well as advocate for worldwide rights to health freedom and bodily autonomy.

THE DEFENDER IS AVAILABLE IN:

ENGLISH SPANISH PORTUGUESE GERMAN ITALIAN FRENCH
